Camp experience

What was the highlight of your trip?

When I got to pray with a student and give him the final push to salvation, was my highlight of the trip.

Christian Crosby (member of the US team)

What did God teach you on this trip?

“God taught me that He is enough. I don't need running or anything else in my life except Him. I don't need to turn to anything or anyone else but Him, because He will always be there to help me and love me. I don't need to worry, because his plan for me is greater than I could ever imagine and He will take care of anything that happens in my life”.

Jennifer
(member of the US team)

What are you taking from this experience?

“I need to try to be more active in pursuing Christ in my daily life. I tend to get stuck just going through my daily routine, and don’t actively look for God at work in my daily life. I should be more open and allow God to work through me more and see how I can affect those around me here. I have a lot of non Christian friends that I can hopefully influence”

Taylor (member of the US team)

What was the highlight of your trip you?

“The repentance night was HUGE. Looking around and seeing all of the relationships really being developed and seeing God working right at that very moment was incredible. Not to mention how it continued through the rest of camp. I've been to camps before where there's just a one night deal and then the students go back to "normal" and almost forget the amazing spiritual experience they had so it was really awesome to see these students seem to really soak it all in”.

Callyn (member of the US team)

What has been your FCA experience?

“Being part of FCA ministry I learned that I can trust and have support in others. Without God we can’t do anything. We’ve got to have a clean heart. Everything starts with prayer.”

Igor Policshuk (Basketball coach)

“It’s really important to spend time influencing coaches and athletes. It’s huge and can change the whole sport. FCA ministry is not something that gives you quick results, but it’s a long lasting ministry through relationships. It’s 1 on 1 discipleship that takes time.”

Oleg Blochuk
(pastor church “Skelya”)

“FCA is cool! It’s helping to raise new leaders in the church. A lot of seeds have been planted, and we are waiting for fruit. FCA is working with difficult material, with coaches and athletes. God Bless.”

Vova Demedyuk
(FCA volunteer, Partnership Camp
program director)

“Sport was always a big part of my life. Playing sports, I met my new friends who knew God personally. These friends invited me to come and be part of the FCA Power Camp “Game Changer”. That’s where God moved my heart. I began to understand His Word, and He begin changing me. I hope that everyone will let Him change their life.”
